- Cooking with herbs

Things to See:

- Elmer the miniature donkey
- Farmer Larry's Tunnel Garden
- Fairy and gnome garden in the court yard.

March 2011

Hello Friends, The cold winter winds are almost behind us, and spring is right around the corner—Creamy Acres has been busy this winter planning new and exciting ideas and events for everyone in the family.

This April – we are holding our 2nd Lil' Peeps Easter Egg Hunt. We are also going to have a beautiful variety of Easter Flowers and Pansies One of a kind designed Easter flower baskets and containers. Great gift ideas for grandma and grandpa from the kids...Or maybe...Spread some sunshine and give an Easter Flower to someone special.

Our country store will be stocked with a variety of Jams– Jellies, spreads, salsa and dressings. Local Honey and farm fresh eggs will be available as will “Specialty Easter candy” for a limited time. The country Store will also be stocking its shelves and displays with garden décor as well as supplies you will need throughout the summer months to make your gardens beautiful. See you in April! CHECK OUR SPECIALS and COUPONS in the CLIPPER AND ONLINE.

LOCALLY GROWN – JERSEY FRESH

Did you know that a typical carrot travels about 1,800 miles before it lands on your salad plate? Caught up in our fast—paced world of quick marts and large grocery stores, most of us don't give a second thought to where our food comes from. Enter a new health movement: eating locally. The concept is to buy food and produce, grown or raised as close to your home as possible. Buying locally grown builds community; when you buy local you are re-establishing a time-honor connection. Knowing the farmers, gives you insight into the weather and the miracle of raising food. It also gives you access to farms where your children and grandchildren can go and to learn about nature and agriculture.

This year Creamy Acres will be providing local produce from local farmers as well as some of our own. We hope to also have a variety of Heirloom vegetables for you to try. Purple, Pink and Yellow radishes as well as snow peas and beets are the first of the Heirlooms. Also in the seedling stage at the moment are mix lettuce greens, rainbow chard and Kale. We plan on having them by April!
